SPECIAL EFFECTS & HEALTH AND SAFETY

All events must supply risk assessments and method statements for all hazardous activities and equipment at least 28 days prior to the event. All visitors are required to follow health and safety advice and procedures whilst in the venue and service yard, all performers and show staff will be delivered a Health & Safety induction prior to commencing any activity, to be delivered by the Duty Stage Manager for the day.

All special effects must be authorised by the Technical Manager & Venue Manager prior to use. Effects are considered to be any pyrotechnics, smoke, haze, firearms, strobe lighting, bladed articles, special rigging etc. In addition to risk assessments and method statements you may also be asked for copies of any certificates including but not limited to (IPAF, PASMA, etc), PAT Test certificates, LOLER certificates, NRC certificate, Fire Test certificates etc.

The theatre requires 28 days written notice for permission to use any special effects. We reserve the right to refuse effects, rigging, use of electrical equipment and access equipment if risk assessments, method statements, supporting evidence or certificates are not produced or if sufficient notice is not given.

ORCHESTRA PIT / THRUST STAGE

There is a variable sized orchestra pit with a maximum dimension of 11.5m wide x 2.25m front to back Large Pit (Front 3 Rows) or 1.75m front to back Narrow Pit (Front 2 Rows) & 45cm Deep shallow setup or 90cm Deep in lowest position. Please note that at its narrow setup the pit reduces capacity by 44 Seats, and at its largest setup reduces capacity by 66 Seats. Other width options are possible please discuss options with the technical manager at time of booking. The Orchestra pit sits on a mechanical lift which is capable of stage height where the lift forms a thrust stage adding an additional 11.7m Wide x 1.75m stage extension to the front of the stage. Please note treads are not available to and from the stage when the Thrust is in use. Additional staffing charges apply for pit setup and removal after event.

REAR STALLS CONSOLE POSITION

The control room is situated at the rear of the auditorium, with sliding window, with space for both sound & lighting consoles. Alternatively, we have 2 sized mix options in the rear stalls, standard takes up 13 seats over 2 rows and has a 3ft x 8ft desk spanning the seating rows. Extended/Large format, removes 19 seats and provides a level mix position 3 rows deep, approx. 3m Wide x 2.6m Deep. 3ftx8ft Desk also available or desk rocker. Please ensure this is requested with enough prior notice.

Multicore Run is 32m from rear stalls position to DSL DSM desk location.

STAGE TREADS

Stage Treads are available if requested at time of booking. These are available Stage Right Only and will reduce capacity by 8 seats, end 4 seats of the front 2 rows house left.
